SUMMARY

Adaptable and quick learner looking for an opportunity to begin my career in software development and AI automation. Keen to contribute to challenging projects, gain industry exposure, and grow along with the organization.

EXPERIENCE

Intern   June 2025 - Nov 2025

Successfully completed an internship at **Quiddity Infotech Pvt. Ltd.**, where I contributed to real-time AI projects using Python. Actively involved in optimizing workflows, enhancing ML models, collaborating with cross-functional teams, and maintaining well-structured project documentation.

PROJECTS

HR Leave Automation   Link

Developed a full-stack web application to automate and streamline the employee leave management process, replacing manual email tracking and spreadsheet updates with an intelligent, role-based system for HR administrators and employees.
Tech: Python (Flask), HTML5, CSS3, JavaScript (ES6+), SQLite3.

Scrapy.ai   Link

Designed and deployed a private AI analyst using Gemini and open-source LLMs, enabling CPU-based inference with quantization for privacy, cost efficiency, and real-time analytics.
Tech: Python, Streamlit, Gemini API, Transformers.
